The Next Evolution
in Safety Training

Welcome to the Evolution in EH&S Resources

Evolved Safety is helping a number of organizations experience a new and refreshing way to source occupational health and safety resources, one where your needs come first. With access to multiple resources, we focus on finding the right products and services for you – and help you transition when you are ready for new content or a new training system.

Evolved Approach

We help you navigate the extensive choices in the EH&S market and make it easy to transition as your needs change. You get choice and flexibility to create the perfect EH&S program for you, your budget, and your employees.

Evolved Customer Service

Our number one goal is to offer knowledgeable, attentive, and focused customer service for your needs. We're there when you give us a call and always ready to assist.

Evolved Safety Culture

Your interests come first. With our expert, unbiased expertise we evaluate your needs, find the best solutions, and provide resources that help you build an effective safety culture and safety program. We work for you, not the vendors, to give you choice, flexibility, advocacy, and transparency. With one call and a single point of contact, we make sourcing your safety materials effortless.

A New, More Intelligent Source for your EH&S Resources

Safety Products & Services for Manufacturing, Construction, & OSHA Compliance

Evolved Safety works as a safety professionals' very own personal shopper to help source safety resources from the top vendors in the EH&S market. We listen to your needs, evaluate solutions, and present the best option to help you select and implement programs relative to your requirements. We work on your behalf to negotiate purchase or lease terms, so you can get the most out of your investment. Best of all, we can combine products and services from different vendors, such as content, onsite services and learning management systems, for the benefits of multiple resources all from a single point of contact.

Our goal is to create lasting relationships by collaborating with you to create an ideal safety program by focusing on YOUR needs before the products, by making sourcing and maintaining safety resources uncomplicated, and by assisting you through program changes as necessary. We hope to be an extension of your safety team, working with you throughout the duration of your program to experience a win-win solution – the ability to work with a single, customer service focused representative while obtaining industry-leading resources.

Take a look at the products and services we offer through our amazing vendors:

- Interactive Online Training Programs
- Learning Management Systems
- Onsite Training & Consulting Services
- Streaming Video & DVD Training Programs
- OSHA 10 & 30 Hour Training
- HAZWOPER Training
- Custom Training Productions
- Fleet Driving Programs
- Safety Management Software

Listed throughout this catalog are our vendor's course lists and additional descriptions of the products and services listed above.

For complete course descriptions, demo access and to learn more about course offerings from Evolved Safety, contact us at **844.528.4486** or visit **www.evolvedsafety.com**.

CAL/OSHA Training Series

- Basic First Aid - Cal/ OSHA E
- Bloodborne Pathogens - Cal/ OSHA E
- Compressed Gases Awareness - Cal/ OSHA E
- Electrical Safety - Cal/OSHA E
- Fall Protection Awareness - Cal/ OSHA E
- Fire Safety - Cal/ OSHA E
- Forklift Operator Training: Cal/ OSHA SE
- Hand and Power Tool Safety - Cal/OSHA E
- Hot Work/Arc Welding - Cal/OSHA E
- Industrial Ergonomics - Cal/ OSHA E
- Ladder Safety - Cal/ OSHA E
- Sexual Harassment and Discrimination in California for Employees E
- Sexual Harassment Prevention for Managers in California (AB1825) E

Canadian Training Series

- Back Injury Prevention – Canada E
- Basic First Aid - Canada E
- Bloodborne Pathogens - Canada E
- Chemical Safety - Canada E
- Cold Stress in the Workplace - Canada E
- Confined Space Awareness - Canada E
- Construction Safety - Canada E
- Delivery Driver Safety - Canada E
- Discrimination in the Workplace - Canada E
- Distracted Driver - Canada E
- Driver Safety - Canada E
- Drug Free Workplace – Canada E
- Electrical Safety - Arc Flash – Canada E
- Electrical Safety - Canada E
- Emergency Response - Canada E
- Excavation and Trenching - Canada E
- Fall Protection – Canada E

- Fire Safety - Canada E
- Forklift Operator Training – Canada E
- H2S Safety Procedures for Drilling and Production Operations - Canada E
- Halloween Safety Tips - Canada E
- Hand and Power Tool Safety - Canada E
- Hazardous Driving Conditions – Canada E
- Hazards of Speeding - Canada E
- Hearing Conservation -Canada E
- Heat Stress in the Workplace – Canada E
- Hot Work/Arc Welding - Canada E
- Incident Investigation - Canada E
- Industrial Ergonomics - Canada E
- Job Safety Analysis - Canada E
- Ladder Safety - Canada E
- Lockout/Tagout - Canada E
- Machine Guarding - Canada E
- Materials Handling - Canada E
- Office Ergonomics – Canada E
- Oil Rig Safety – Canada E
- Performing Safety Audits - Canada E
- Personal Protective Equipment - Canada E
- Portable Fire Extinguishers - Canada E
- Respiratory Protection - Canada E
- Road Rage - Canada E
- Safety Data Sheets - Canada E
- Scaffold Safety – Canada E
- Severe Weather and Outdoor Work - Canada E
- Slips, Trips and Falls - Canada E
- Stop Work Authority - Canada E
- Violence in the Workplace - Canada E
- Warehouse Safety - Canada E
- WHMIS 1988 - Canada E
- WHMIS 2015 - Canada E

Construction Safety

- Back Injury Prevention for Construction Workers E
- Confined Space Entry Supervisor E
- Electrical Safety for Construction E
- Hazard Communication for Construction Workers E
- HVAC Safety Considerations E
- Lockout/Tagout for Construction E
- Mold and Mildew Awareness SE
- OSHA 30 Authorized Construction E
- Personal Protective Equipment for Construction E
- Slips, Trips and Falls in the Construction Industry E

Driver Safety Series

- 12 and 15-Passenger Van Drivers and Administrators E
- Commercial Motor Vehicle Inspections E
- Delivery Driver Safety E
- Distracted Driver SE
- DOT Requirements for Semi-Truck and Box Truck Drivers E
- Driver Safety SE
- Hazardous Driving Conditions SE
- Hazards of Speeding E
- Road Rage E
- Safe Trip Planning for Over-the-Road Drivers E

Eco-Sustainability Series

- Energy Efficiency at Home E
- Hazardous Waste Awareness (RCRA) E
- Universal Waste Management SE
- Used Oil Management E

Electrical Safety Series

- Electrical Safety GMPSE
- Electrical Safety - Arc Flash SE
- Electrical Safety - Grounding E
- Electrical Safety above 601 Volts E

Emergency Response Series

- Basic First Aid GMPSE
- Emergency Action Plans - Office Employees SE
- Emergency Response SFE
- Surveying the HAZMAT Incident E

Environmental Performance

- Environmental Awareness SE
- Pollution Prevention Initiatives E

- Safety and Health Awareness for Oil Spill Cleanup Workers E

Food Safety

- Allergen Control in Food Manufacturing E
- Cleaning and Sanitizing Chemical Safety in Food Manufacturing E
- Food Defense E
- Food Safety SE
- Food Safety Plans E

Forklift Safety Series

- Forklift Operator Training GMPSE
- Forklift Operator Training - Safe Operations SE
- Forklift Operator Training - Safe Traveling and Loading SE
- Forklift Operator Training - Safe Maintenance SE
- Pedestrian Safety Around Forklifts E

General Industry Safety Training

- Accident Prevention Signs and Tags E
- Active Fall Protection Systems E
- Active Shooter (A.L.I.C.E.) SE
- Aerial Lift Safety SE
- Asbestos Hazard Awareness SE
- Back Injury Prevention SFE
- Behavior Based Safety E
- Benzene Awareness E
- Bloodborne Pathogens - Competency Format E
- Carcinogen Awareness E
- Cold Stress in the Workplace FE
- Combustible Dust E
- Compressed Gas Safety GMPSE
- Confined Space Awareness SFE
- Confined Space Entry Supervisor E
- Construction Safety E
- Data Protection for Industry and Business E
- Excavation and Trenching SE
- Fall Protection GMPSE
- Fire Safety GMPSE
- Flammable and Combustible Liquids SE
- Formaldehyde Safety in Research and Education E
- General Safety Orientation E
- Globally Harmonized System (GHS) SE
- Hand and Pinch Point Safety SE
- Hand and Power Tool Safety SFE
- Hazard Communication SE

WORKPLACE SAFETY

Occupational Safety & Health

- Aerial and Scissor Lift Safety*†
- Asbestos Hazard Awareness*†
- Back Care and Injury Prevention
- Basic First Aid*†
- Basic Respiratory Protection†
- Behavior-Based Safety*
- Bloodborne Pathogens (BBP)†
- Cardiopulmonary Resuscitation (CPR)*
- Chemical Safety*
- Chlorine Safety*
- Cold Stress*
- Compressed Gas Safety*
- Confined Spaces Entry – Permit Required*
- Confined Spaces*
- Criticality Safety*
- Distracted Driving*
- Driver Safety*†
- Electrical Safety*†
- Emergency Response*
- Excavation, Trenching and Shoring Safety*
- Fire Safety*†
- Flammable Liquid Safety*
- Forklift Operator*
- Formaldehyde Safety*
- Hand and Power Tools*†
- Hand Safety*†
- Hazard Communication*†
- Hearing Conservation*
- Heat Stress*
- Hot Work with Arc Welding†
- Hydrogen Sulfide Safety*
- Incident Investigation*
- Indoor Air Quality*
- Industrial Ergonomics*†
- Laboratory Safety*
- Ladder Safety*†
- Lead Awareness†
- Lock and Tag*†
- Machine Guarding*†
- Maritime Lock and Tag Plus†
- Office Ergonomics*†
- OSHA Work-Related Injury and Illness Recordkeeping*
- Overhead and Gantry Crane Safety*†

- Personal Fall Arrest Systems*
- Personal Protective Equipment*†
- Portable Fire Extinguisher*
- Powered Industrial Trucks*
- Process Safety Management
- Radio Communications*
- Safe Driving Behaviors for Commercial Motor Vehicles (CMVs)*
- Safety Audits*
- Scaffold Safety*
- Slips, Trips, and Falls*†
- Traffic Control (Flagger)

Forklift Operator

- Lesson 1 – Fundamentals†
- Lesson 2 – Stability and Capacity†
- Lesson 3 – Load Handling†
- Lesson 4 – Safe Driving Practices†
- Lesson 5 – Safety Standards†
- Lesson 6 – Inspection & Maintenance†

Environmental Management

- Air Emissions Management
- Emergency Planning & Community Right-to-Know Act (EPCRA)*
- Hazardous Waste Management*
- Spill Prevention, Control and Countermeasures
- Storm Water Management
- Wastewater and Storm Water Management

Hazardous Waste Operations

- Hazardous Waste Operations and Emergency Response 8-hr Refresher (HAZWOPER)

NFPA 70E

- Electrical Safety Work Practices and Standards*

UL's Workplace Health and Safety course library offers self-paced training that is engaging, consistent and measurable. You and your trainees can access or manage training 24/7 from virtually any Internet-connected computer. All courses are developed by a team of certified safety professionals and adult learning experts, and are continuously updated to address compliance requirements. The in-house Professional Learning Services team maximizes employee learning and retention with rich multimedia features including:

- High-quality course narration and text
- Superior high-resolution graphics, 3D animation and illustrations
- Challenging learning activities, knowledge checks and post-tests to reinforce and evaluate employee knowledge
- Intuitive course navigation and bookmarking

UL's flexible delivery and pricing fit any environment, workflow or budget, and our Course Licensing options allow you to run content on your learning management or enterprise software system.

All of UL's Workplace Health and Safety courses conform to AICC and SCORM 1.2 requirements.

Interactive Online Training Programs »

This defensive driving program has been designed to address a fleet's top crash causes. Each lesson targets common errors made every day by drivers on our roadways.

Each module is designed to take only 15-20 minutes to complete and consists of four easy to follow steps:

STEP 1: UNDERSTAND THE PROBLEM

Speeding

In this module, participants will learn:

1. Characteristics of high-risk drivers.
2. Risks and hazards posed by speeding.
3. Techniques to help avoid speeding.

STEP 2: KNOW THE STATS

A Deadly Decision

Speeding is a factor in nearly 1 out of 3 deaths on U.S. roads.

STEP 3: WATCH THE VIDEO

Fleetdefense™
DEVELOPED BY alertdriving

STEP 4: TAKE THE QUIZ

Step 1

The first step is an interactive slide show that the driver goes through at their own pace beginning with the learning objectives for the module.

Step 2

The second step visually depicts the scope of the problem. This may appear in the form of a chart or a graph.

Step 3

The third step is a full-motion, streaming video, which loads in the background while the driver is going through the first two steps.

Step 4

Finally, the driver goes through a 10 question quiz based on the module they've just been through. Each question is taken from a pool of more than 20, ensuring that each quiz is unique.

All AlertDriving modules follow the 4-Step process outlined above.

Defensive Driver Training Modules

- ABS
- Alcohol, Drugs & Driving
- Auto Theft
- Avoiding Collisions with Large Animals and Debris
- Avoiding Collisions with Pedestrians and Cyclists
- Deadly Distractions
- Defensive Backing Strategies
- Defensive Parking Strategies
- Driving in Adverse Weather Conditions
- Drowsy Driving
- Escape Routes
- Failure to Yield
- Vehicle Maintenance
- Intersections
- Intersection Problems
- Intersection Solutions
- Road Rage
- Lane Changes
- Parking Lots and Backing
- Safe Driving at Night
- Roundabouts
- Safe Business Travel
- Safely Navigating Rural Roads
- Safe Driving in Construction Zones
- Safe Freeway Driving
- Seat Belts and Airbags
- Sharing the Road with Large Trucks
- Speeding
- SUVs, Trucks & Minivans

Advanced Defensive Driver Training 1 Modules

(available in select countries)

- Aggressive Driving
- Anticipating the Other Motorist
- Avoiding the Worst Collisions at Intersections
- Avoiding Rear-End Collisions
- Maneuvering in Tight Spaces
- Onboard Technology Distractions

Advanced Defensive Driver Training 2 Modules

(available in select countries)

- Avoiding Collisions with Fixed Objects
- Challenging Weather Conditions
- Danger Zones
- Inappropriate Speeds for Conditions
- Overtaking
- Underestimating Driving Risks

Fuel Efficient Eco-Modules

- Eco Driving Trip Preparation
- The Fuel Efficient Eco-Attitude
- Managing Emissions on the Road

Service Vehicle Training

- Adverse Weather
- Defensive Backing & Parking
- Escape Routes & Space Cushions
- Intersection and Turning
- Lane Changes and Passing
- Non-Moving Vehicle Injuries
- Physical Characteristics & Driver Distractions
- Service Vehicle Maintenance
- Speeding & Braking

Commercial Truck Training

- Adverse Weather Conditions
- Deadly Distractions
- Defensive Backing Techniques
- Drowsy Driving
- Emergency Maneuvers
- Failure to Yield
- Hazard Avoidance
- Safe Highway Driving
- Safe Lane Changes
- Safely Navigating Intersections
- Safely Navigating Intersections
- Speeding
- Proper Use of Mirrors
- The Professional Defensive Driver

Interactive Online Training Programs »

Large Passenger Van Training

- Van Safety 1
- Van Safety 2

Medium Duty Vocational Trucks Training

- Adverse Weather Conditions
- Deadly Distractions
- Defensive Backing Techniques
- Drowsy Driving
- Emergency Maneuvers
- Failure to Yield
- Pre-Trip Inspection
- Preventing Slips, Trips, Falls & Back Injuries
- Proper Use of Mirrors
- Safe Highway Driving
- Safe Lane Changes
- Safely Navigating Intersections
- Speeding
- The Professional Defensive Driver

CSA Driver Training - Commercial Trucks

- Cargo-Related Violations
- Controlled Substances & Alcohol
- Crash Indicator
- Driver Fitness
- Fatigued Driving
- Unsafe Driving
- Vehicle Maintenance

CSA Driver Training - Commercial Trucks

- Cargo-Related Violations
- Controlled Substances & Alcohol
- Crash Indicator
- Driver Fitness
- Fatigued Driving
- Unsafe Driving
- Vehicle Maintenance

Powered Two-Wheeler Modules

(available in select countries)

- Alcohol, Drugs and Driving
- Avoiding Failure-to-Give-Way Collisions at Intersections
- Drowsy Driving
- Proper Scanning and Crash Avoidance

Trailer Operation

- Trailer Safety

Learning Management System »

Safety Skills robust learning management system allows your organization to:

- Identify training requirements and set goals at the individual, team, and organizational levels
- Assign, deliver and record instructional content and training activities, whether delivered online, in the classroom, or in the field
- Track progress towards meeting training goals
- Collect data to help fulfill recordkeeping and reporting requirements and to aid in assessing the efficacy of the training program as a whole

SafetySkills offers and supports an enterprise-level, SCORM/AICC compliant LMS that provides a powerful set of features to help organizations streamline their training processes with minimal costs. Developed specifically to meet the needs of Environmental, Health and Safety and Human Resources departments and programs, the SafetySkills LMS offers a reliable, one-stop resource to manage your organization's training needs.

Centralized Training Management

- Assign, track and manage both online and offline training, including scheduling events and managing course enrollment, all from one central location
- Import archived training records
- Upload additional SCORM/AICC compliant courses
- Attach documents and/or links to additional resources for your learners
- Track Continuing Education Units (CEUs)

Learning Management System »

Vivid Learning Systems' safety training systems are specifically configured for occupational health and safety reporting to help safety pros lower the expense of training programs, save time on administration, and make training more efficient. Vivid's learning system is easy to use, easy to set-up, and fully supported.

- **Tracking & Reporting**

Track training in real-time, centralize recordkeeping, and be more productive, all while keeping your employees aware of their progress. Measure success and improvement with testing and custom reporting.

- **Support Live Training Programs**

Whether employees take an on demand course or attend a safety meeting, Vivid's safety training systems can track all of your training activities with live event tracking.

- **Notifications**

Automate reminders and tasks so you are always on top of your training, with automatic email notifications, course completion notes, and reports.

- **Surveys & Evaluations**

Build accountability by gathering insight directly from your employees. Place surveys into online courses, a great tool for internal safety training assessment, but also for learning more about the workforce you manage.

- **Certificates**

Easily combine training activities into a single curriculum to make tracking completions easier and more organized. Employees receive one certificate of completion for all the training activities, all while tracking the time spent.

- **Upload Your Own Content**

Do you have an existing library of assets you want to use? Whether your assets are PDF's, films, PowerPoint decks, YouTube links or SCORM and AICC content, there's a place for that material in the Vivid safety training system. We will work with you on integrating assets.

- **Multi-Language and Branded Interface**

A global workforce is not a problem. Vivid's systems adapt to the language needs of your business meeting the look and feel of your brand.

Learning Management System »

UL's powerful Safety Management System uses real-world experiences to help prevent workplace accidents and injuries – and improve productivity.

PureSafety's system goes beyond basic tracking to give you a total solution for EH&S program management. System capabilities include incident reporting and risk management with monitoring and reporting options to give you detailed information on safety trends occurring at your worksite, so you can adapt your training at any time to ensure you are meeting your safety program goals and initiatives.

PureSafety's comprehensive solution allows you to:

- Schedule, deliver, and track safety training
- Report and track incidents
- Analyze and learn from near-misses
- Assign corrective actions to avoid future incidents
- Customize courses to your brand, images and equipment
- Streamline workflow
- Launch SCORM or AICC compliance training courses
- Auto-populate in-the-moment news flashes or create customized training sessions based on actual events or generate learning experiences

By using PureSafety, your entire enterprise can save both time and money.

- Increased productivity and collaboration across multiple worksites
- Better compliance and recordkeeping
- Quick and accurate report generation for Executive Management

Onsite Training & Consulting Services »

From safety program development to litigation support, Evolved Safety works with vendors to provide a custom onsite solution for your safety program. Our large network of trainers and consultants is available throughout the United States, ensuring quality and consistent results no matter the size of your organization or number of employees. Services include audits and inspections, industrial hygiene exposure monitoring, respiratory fit testing, program and project management, safety professional placement, OSHA VPP preparation, and more.

PROGRAM DEVELOPMENT

- Safety meeting development
- PICS and ISNetWorld Compliant
- Written site-specific health and safety plans (EM385-1-1 Compliant)
- Permit required confined space entry programs
- Hazcom programs
- Emergency action and response plans
- Respiratory protection plans
- Exposure control (bloodborne pathogens) programs
- Chemical hygiene programs
- Fire prevention

AUDITS AND INSPECTIONS

- On-site audits
- Lockout/tagout
- Respiratory protection
- Confined Space
- Machine guarding
- Hazcom
- On-site industrial hygiene
- On-site environmental audits
- Mock OSHA inspections
- Mock EPA Audit
- Mock DOT Audit

INDUSTRIAL HYGIENE EXPOSURE MONITORING

- Chemical exposure assessments
- Noise assessments
- Ergonomic assessments

LITIGATION SUPPORT

- OSHA citation review, assessment and defense
- Expert witness testimony

RESPIRATORY FIT TESTING

ASSESSMENTS AND ANALYSIS

- Environmental and regulatory overview (RCRA, CERCLA, OPA, CAA, CWA, etc.)
- Program needs assessments
- Training needs assessments
- Ventilation/Dust collection assessments
- Site hazard assessments
- Activity hazard/job safety analysis
- Arc flash
- Gap analysis

PROGRAM/PROJECT MANAGEMENT

- Project management and oversight
- Emergency contingency planning
- Injury assessments and recordkeeping
- Injury claims management
- Incident investigation
- Safety committee assistance
- Training tracking

D2K is a company passionate about video, creating high quality video safety training productions for over three decades. D2K's video productions include live action video, motion graphics, and professional narration ensuring students are engaged to comprehend and retain key safety information. D2K's library of over 1,000 video training programs includes specialized topics and meet industry and specific workplace requirements. Programs range from full length to short refresher courses, and many programs are available in Spanish.

Topics Covered Include:

- Accident Investigation & JSA
- Alcohol & Drugs
- Automotive Repair
- Back Injury Prevention
- Bloodborne Pathogens
- Chemicals & HazMat
- Child Care
- Confined Spaces
- Construction Safety
- Defensive Driving
- Disaster Preparedness
- Electrical Safety
- Emergency Responders
- Emergency Preparedness
- Environmental Safety
- Ergonomics
- Eye Protection
- Fall Prevention
- Fire Prevention
- First Aid and Medical
- Fitness & Diet
- Forklift & Powered Industrial Trucks
- GHS & Hazard Communication
- Hand Tool Safety
- HAZWOPER
- Hearing Protection
- Human Resources
- Incident Command
- Law Enforcement/Fire/Security
- Manufacturing Safety
- Personal Protective Equipment
- Public Agency Safety
- Respiratory Safety
- Safety Orientation 2000
- Schools Safety
- Sexual Harassment
- Supermarket/Grocery Store Safety
- Supervisor Management
- System Lifting 2000
- Transportation Safety
- Trenching & Shoring
- Trucking Safety
- Waste Management
- Welding Safety
- Working Outdoors

Industries Include:

- Automotive & Trucking
- Agriculture
- Building & Grounds Maintenance
- Child Care Providers
- Construction
- Emergency Responders
- General Industry
- Hotel Safety
- Healthcare Providers
- Human Resources
- Janitorial & Custodian
- Laboratories
- Office Environments
- Oil & Gas
- Public Works
- Restaurants & Food Service
- Schools & Universities
- Special Education & Disabilities
- Solid Waste & Waste Water Treatment
- Supermarket & Grocery Store
- Supervisor Management
- Shop Maintenance
- Transportation
- Warehouse Safety
- Welding & Compressed Gas

Safety Management System »

The Assure health & safety management solution from **SHE Software** combines complete health & safety functionality with an exceptional level of configurability.

Our customers are people with legal or functional responsibility for complex or dispersed operations where traditional approaches to managing health & safety are no longer adequate. With a total of 83 sub-modules organised under 9 main modules, and powerful configuration and workflow management tools, Assure meets all but the most specialist of requirements.

The Assure health & safety management solution can be accessed at any time from any web enabled device and is suited to all sizes of organisation. It offers a secure, convenient method to:

SHE Software can ensure that your business is compliant with health and safety legislation and standards of best practice, including HSG65, BS OHSAS 18001, RIDDOR and ISO 14001.

Compare ASSURE to the Alternatives

At SHE we have a particular philosophy towards health & safety software solutions. This is the way we do it because we think it works best but there are other approaches.

We include lots of functionality in our software but use clever design to keep the user experience simple. There are easy to use systems that might be cheaper but suffer from limited functionality and therefore have limited future capability. Equally there are other highly functional systems, but these are less intuitive and take time to learn.

We focus on configurability rather than customisation or bespoke solutions. This makes maintenance and development simpler and cheaper, and the software more robust and reliable. It also means that our software can be reconfigured by you with support from us if required to meet your changing needs, eliminating the need for the future expensive upgrades that bedevil bespoke systems.

RISK

A simple yet comprehensive framework that gives staff across your entire organisation the tools to identify, assess and manage risks relevant to their activities.

- Project risk assessment
- Activity risk assessment
- COSHH assessment
- MSDS
- GHS SDS
- DSE assessment
- Fire risk assessment
- Noise risk assessment
- Hazard spotting
- Manual handling risk assessment

INCIDENT

Gather information quickly to mitigate against recurrence with this comprehensive set of tools for documenting, reporting and investigating accidents and incidents.

- Incident recording
- Vehicle incident
- Incident investigation
- RIDDOR
- Claims management
- Incident analysis
- Accident incident frequency
- Vehicle register

AUDIT

From tracking safety checks to complying with insurance guidelines, fully audit compliance procedures across multiple sites and locations. Easily produce summary or individual reports at site, department or company level.

Safety Management System »

ASSET

Maintain safe operation of all assets with scheduled reminders, action management and follow up actions tracked to completion. Equipment issue tool tracks asset use by who, when and where.

- Equipment register
- Equipment issue
- Lifting equipment
- Electrical testing
- RPE/PPE maintenance

PEOPLE

Gives managers the tools to identify training needs that will ensure the required company training standards are met and reviews are never missed so training is reviewed on time.

- Person register
- Employment history
- TNA course/component
- Training records
- Training needs analysis
- TNA templates
- Health surveillance
- Driving license details

BEHAVIOURAL

Be proactive not reactive by engaging your entire organization in recording safe and unsafe observations. A suite of graphical reports highlight success and improvements as well as new areas to target.

- Behavioural safety audit
- Safe/unsafe observation report

CONTRACTOR

Provides one place to manage contractors and their compliance through the management and completion of all relevant documentation under the CDM Regulations prior to granting site access.

- Notification of project
- Construction phase plan
- Approved supplier/contractor
- Pre-construction information
- Health and safety file preparation

ENVIRONMENT

Record and manage environmental compliance through this suite of configurable aspects, impacts and waste registers that will assist in managing and reducing environmental outputs.

- Environmental management
- Air emissions
- Release to water
- Land contamination
- Waste transfer
- Waste materials register
- Waste handlers register

PORTAL

Your managed, unlicensed gateway enabling all your staff and contractors to report, view and complete health and safety management information easily via configurable user friendly menus.

MOBILE APP

Designed to enhance the Assure user interface for access via mobile devices, the App allows the completion of risk assessments, audits, incident and accident reports etc. in the field without having to worry about network coverage.

OSHA 10 & 30 Hour Training »

Evolved Safety works with multiple OSHA 10 & 30 hour providers for both online and onsite training, giving you options to effortlessly find your perfect solution, all from a single point of contact. With one call, we can help you make the right decision on content and delivery and alleviate the hassle of working with different vendors. We offer online and onsite formats that include:

- OSHA 10-Hour General Industry and Construction
- OSHA 10-Hour Construction in Spanish
- OSHA 30-Hour General Industry and Construction

What you can expect from us for your OSHA 10 & 30 Hour training needs:

- Easily review and select your choice provider without spending the time to search around yourself.
- Offer a mix of online and onsite training to fit your location or employees learning needs.
- Cover all of your bases, from general industry and construction to Spanish language training all from a single resource.
- Vendors have been researched and reviewed to ensure technical accuracy, engaging content, and best value for your investment.
- Easily change up the content to keep the training fresh, especially if your employees take the training more than once.
- Students receive an official OSHA/DOL completion card.

Let us make it easy for you to get the OSHA training you need when you need it with the help of our vendors.

HAZWOPER Training »

Meet compliance needs by completing required HAZWOPER training and earn your HAZWOPER completion certificate with Evolved Safety. We work with several vendors to offer both online and onsite HAZWOPER training that teaches best safety practices involved with hazardous materials operations, such as emergency response, clean-up, transportation, disposal, storage, and treatment. We offer:

- HAZWOPER 8-Hour
- HAZWOPER 16-Hour
- HAZWOPER 24-Hour
- HAZWOPER 40-Hour

First Aid, CPR, and AED Training and Services »

Make sure your team is in compliance and ready to respond with First Aid, CPR, and AED training from Evolved Safety. Take a look at what you'll experience when you choose us:

- National network of over 750 instructors, 97% of which have actual medical experience in nursing or EMS
- Choose from First Aid, CPR, AED, and Bloodborne Pathogens training from American Heart Association or American Red Cross
- Nationwide, consistent workplace CPR AED; First Aid training for companies with multiple locations, eliminates the time and expense required to coordinate training with multiple providers
- Low minimum student requirements
- All instructors are insured and have gone through federal and state background checks

Training programs and services include:

- First Aid, CPR, and AED Training
- Bloodborne Pathogens and/or Emergency Oxygen
- BLS for Healthcare
- Custom Advanced First Aid, EMR, Mock First Aid Drills
- AED Inspection and Maintenance

Custom Training Productions »

Evolved Safety works with our vendors to offer full service custom training production capabilities to create tailored training for your site or company specific needs. You'll get custom cost effective, engaging training programs that convey the specific knowledge you need to provide to your workforce, as well as represent your organization's unique training message efficiently and effectively.

No matter your company size, we work with you and your in-house experts to quickly build specialized training based on your materials and can even travel to your facility to film new media-rich training from scratch on everything from plant policies to machine specific operation guides. Our development teams our capable and experienced in programming relevant interactions and simulations that enable your learners to greatly enhance their retention, all while keeping you in full control over your course content.

When it's time to take control over your training program, we're on your team.

CAPABILITIES

- E-Learning Course Design & Programming
- Course Tracking and Reporting (SCORM, xAPI)
- Interaction Design
- In-House Video & Voiceover Talent
- On-Site Language Support
- Quick Turnaround

USING CASES

- Onboarding Compliance
- Machine Specific Training
- Company Messaging
- Sales Training
- Customer Facing Product Training
